

ENVIRONMENTAL MICROBIOLOGY
CONSULTING

WETLANDS TECHNOLOGY
PROBLEM SOLVING

Dear Environmental Professional,

At Alpha Omega Bioremediation, **bioremediation** is our **ONLY** business. Ever since our company was founded in 1984, as Lambda Bioremediation Systems, we have aided environmental professionals in providing effective, time efficient and economical solutions to their clients' needs. AOB provides a myriad of services including:

- **ENVIRONMENTAL BIO-FEASIBILITY STUDIES**
Site specific Microecological Profiles (MEP's). More state and federal regulatory agencies are requiring this study to justify "Natural Attenuation" and continue monitoring as a remediation option.
- **FULL SITE BIOREMEDIATION**
We provide a consortium of indigenous, site-specific, natural microbes, to provide a cost-effective solution for in-situ soil, ground water and surface water remediation.
- **WETLANDS, "BIOCARB" AND "PHYTOREMEDIATION"**
By combining plants and microbes in an ecologically balanced system, we can treat Mine Drainage, Heavy Metals, Rural Sewage, Landfill Leachate, Golf Course Ponds, Sludge Lagoons and Agricultural Run-Off.
- **COMPLETE R&D AND NEW PRODUCT DEVELOPMENT SERVICES**
We custom design processes to meet specific project requirements. We put and emphasis on providing efficient, cost effective solutions. Some successful projects include: Remediation of Acid Mine Drainage, Ecological Restoration of Soils and Ponds, In-House Waste Water Treatment Systems and Treatment of Leaking UST's. We have also developed and field tested a Mosquito Bio-Larvicide.

AOB has validated closures in Ohio, Michigan, Kentucky, Indiana, Wisconsin and Arizona. The Ministry of the Environment in Ontario Province, Canada has evaluated our technologies and authorized their use.

Is Bioremediation a viable alternative for one or more of the sites you are working on? Call AOB today to find out. We will discuss your needs in complete confidentiality. We are committed to assisting you meet the needs of your client.

Sincerely,

John Chabray, President
