RE:

Erlanger - Boone County

UST ID # ...
UST System(s) Removal Date: January 1994
Tank(s): gasoline tank piping closure only

Dear Sir:

The Division of Waste Management personnel have reviewed the information submitted on June 16, 1997 and the Classification Guide signed and certified on March 21, 1995 and the information contained in the Closure Assessment Report signed on January 19, 1994 on behalf of A...

This data indicates that no concentrations of hydrocarbon constituents for which you analyzed remain within the site above soil cleanup levels in Class III, Soil Table 1 and groundwater cleanup levels specified in Table I of 401 KAR 42:070(E) and 080(E).

From your analyses, the Division agrees that this site has satisfied the requirements of Kentucky Revised Statutes 224.60-105 and Kentucky Administrative Regulation 401 KAR 42:070(E) and 42:080(E). Therefore, no further action is required, at this time, in response to a Closure Assessment request by the Division.

The Division has based this determination on information submitted by C... and reserves all rights to require additional monitoring or testing and to take whatever action is necessary to protect public health and the environment if the Division determines there is need for further investigation.

Payment of any outstanding underground storage tank fees is still required pursuant to KRS 224.60-150. Failure to pay any said outstanding fees may compromise the ability of the facility to qualify for financ... Fund. If outstanding fees are due, you will be contacted by the Underground Storage Tank Branch.

For information on possible reimbursement of permanent closure costs, contact the Office of Petroleum Storage Tanks Environmental Assurance Fund at (502) 564-5981 or 1-800-928-7782.

If you have any questions regarding this matter, please contact Ebrahim Maleki of the Underground Storage Tank Branch at (800) 928-4273, or (502) 564-6716 ext. 685.

Note: All monitoring wells shall be properly abandoned in accordance with 401 KAR 6:310 within thirty (30) days from the date of determination that the monitoring well is unsuitable for use as a monitoring well or within thirty (30) days of receiving a no further action letter from the Cabinet.

Sincerely,

Doyle Mills, Manager
Underground Storage Tank Branch
Division of Waste Management
